Subject: Properties of Concrete

To: Helene Paulo Roberto do Lago <paulo.helene@poli.usp.br>

Dear Paulo,

Yesterday I received two copies of the Portuguese translation of "Properties of Concrete".

The production is beautiful and the double front and back cover is a great development. While I cannot comment on the quality of the Portuguese, I am impressed by the production.

All this is due to you and I know that without your intervention this book would not have seen the light of Brazilian day. Thus I am most grateful to you.

I am sorry I am not well enough to have come to Brazil to launch the book but I am none-the-less most grateful for your contribution.

With my thanks and very best wishes,

Adam Neville
